What do the numbers in the center of the recycling sign mean?

- #1: PET bottles and boxes e.g. Soda and water bottles
- #2: HDPE bottles e.g. Milk and laundry detergent bottles
- #3: PVC bottles e.g. Health and beauty products
- #4: LDPE containers e.g. vegetable oil and margarine tubs
- #5: PP containers e.g. Yogurt, syrup, and ketchup bottles
- #6: Styrofoam, polystyrene e.g. Meat trays, egg cartons, packing peanuts. These **cannot** be recycled.
- #7: Other e.g. Narrow neck containers

The average American uses 650 pounds of paper each year. If all that paper was recycled, 100 million tons of wood could be saved each year.

Do not forget to recycle this flyer.
